

# OBEDIENCE SIRENS & STROBE

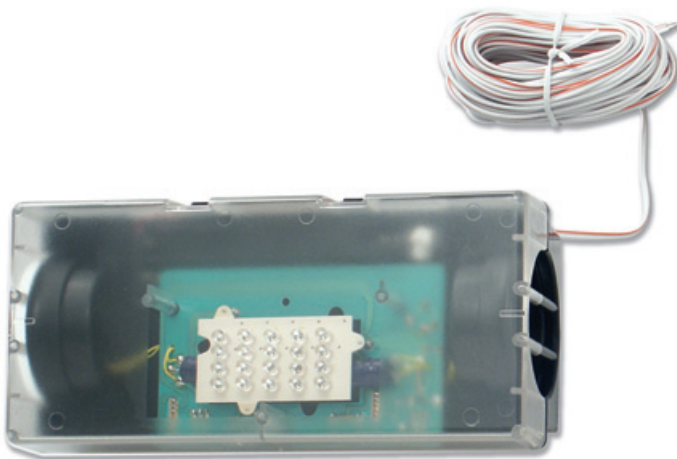

This is an unit operated by battery inside, needless any extra power from anywhere, to link an on/off switch or an "open collector" transistor for being an extension sensing indicator (even 50 meters away).

這是一個內含電池電源,不需外加電力,僅需外接-ON/OFF SW,或一個" Open Collector "之電晶體便可簡易得到一個延伸50米外之閃光警報裝置

## • LD-68OB

Adhesive velcro attachment on the back convenient for sticking on anywhere

## • LD-396 Patent No. 179783
