

ANTI-SHOPLIFTING DEVICES

The simplest, most effective and convenient anti-shoplifting device for protecting the merchandises during display.

最方便有效的展示商品離線警報裝置，可簡易裝置保護於容易被偷走展示品上

Independent units of anti-shoplifting models #LD-28x series Patent No.155479

• LD-28TS
Mini Type

• LD-28T
Ring Type

• LD-28TE
Twin-end Type

Key Features

- One main unit (#LD-328) can secure 1-10 pcs. of objects simultaneously, three different optional sensing ends for various products.
- One side with an alarm and tamper switch; the other side with tamper switch only. (#LD-28xx series)

LD-328 with three optional different types of sensing ends

• LD-328 Patent No. 215448

• LD-ASS
Mini Type

• LD-ASR
Ring Type

• LD-ATE
Twin-end Type

Application (#LD-328)

Key Specifications

- Operating voltage : 2V - 3V DC
- Tone : Bi tone
- Bi tone output : 105 ± 5 dB (#LD-328)
(at 1 ft) 88 ± 5 dB (#LD-28xx)
- Stand-by current consumption :
1.0uA(Typical)
- Activation current consumption :
28mA(Typical)
- Stand-by battery life : (Built-in)
Over 10 years (#LD-328)
Over 1 year (#LD-28xx)
- Color : Gray
